ABOUT US

SPACE PLANNING

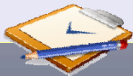

ATECT LLC

Atect LLC is an 8(a) certified minority owned and operated, CAD drafting and design firm. We have over twelve years of design experience. We use Building Information Model (BIM) technology to provide our clients with the highest level of 2D/3D integrated CAD drawings. Our services include CAD drafting, design, space planning and 3-D modeling.

At Atect LLC our priority is always our customers and their unique needs. We pride ourselves on being responsive to clients in a thorough and timely manner while maintaining a superior quality of work.

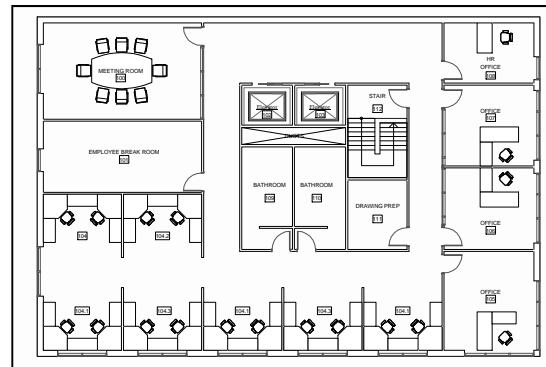

COMPANY STRENGTHS

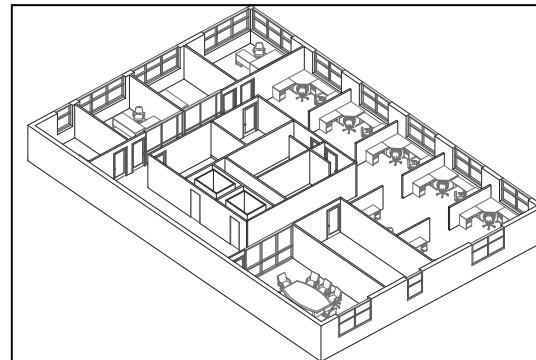

- Personal and flexible customer service
- We offer an expedited service with out neglecting quality
- Our CAD software allows for 2D/3D design to be performed simultaneously.

THE IMPORTANCE OF 2D WITH 3D DESIGN

3-dimensional CAD designs helps customers visualize the plan. At Atect Designs we provide a 2D & 3D perspective of your space. CAD renderings provide a mechanism to visualize a plan and they also help insure that the space meets the customers needs.
